Survey Questions

Domains

The MI Student Voice Perception Survey consists of three domains that districts can choose from: Social- Emotional Learning, Student Engagement, and Belonging.

Scale

Students answer questions using two scales: Frequency Scale and Perception Scale.

A frequency scale measures the rate at which something occurs. The five-point scale is associated with a numerical value in order to find the average response to each question and domain. The higher the average, the better the student experience.

(1) Almost Never (2) Rarely (3) Sometimes
(4) Often (5) Almost Always

A perception scale measures how a student feels about a subject. The five-point scale is associated with a numerical value in order to find the average response to each question and domain. The higher the average, the better the student experience.

(1) Not At All (2) Slightly (3) Somewhat
(4) Quite (5) Extremely
